Are there carpet/rugs in the home that may co	ollect dust and allow dust mites to grow in it?		
□ yes □ no			

If yes, where?					
How often do you vacuum your carpet? $\Box$ 1x/wk $\Box$ 2x/month $\Box$ 1x/month					
Where do you wash your clothes?					
□ laundry at home □ laundromat □	□ other				
When you wash your bed linen who	at water temperature do you use? □ hot □ warm □ cold				
How often are they washed?	$\Box$ 1x/wk $\Box$ 2x/month $\Box$ 1x/month				
What kind of detergent do you use in your laundry?					
What temperature is used to <u>dry</u> clo  ☐ high temperature ☐ medium to					
□ hang on clothes line (inside/out					
How often are curtains and stuffed					
□ other					
Does patient sleep with parents?	·				
If yes, what is the bed size?	□ king □ queen □ full □ twin				
Does patient sleep alone?	□ yes □ no				
If yes, what is the bed size?	□ king □ queen □ full □ twin □ crib				
Do you use zippered dust-proof ma	ttress and/or pillow covers? □ yes □ no				
Comments:					
Goals:					

Dust mites cannot be seen with the naked eye, but are found in all homes. They live in mattresses, pillows, carpets, fabric-covered furniture, bedcovers, clothes, and stuffed toys. Sheets and blankets need to be washed in hot water once a week. Buy washable stuffed toys and also wash these in hot water. Make sure they are dried thoroughly before you put them back in your child's room. Try to keep most stuffed toys off beds.

C. <u>PETS</u> :			
Do you have pets?	□ yes	□ no	
If yes, what kind of pets?	How many?		
Are they kept? □ indoors □ outdoors			
If you have pets and they are kept indoors, are they allowe and/or stuffed toys?	d to be on fabric  ☐ yes	-covered furniture, carpets, □ no	
Comments:			
Goals:			
Pet's skin flakes, urine, and saliva can all be asthma trigg

Molds grow on damp materials. Controlling moisture or wetness in the home will help to control mold. A mold problem should be cleaned up, and any moisture needs to be gotten rid of. Controlling moisture also helps to reduce other triggers, such as dust mites and cockroaches. Using an exhaust fan, if it is available, is especially important when showering, cooking, or using the dishwasher. Any mold present on hard surfaces should be washed off and dried completely. Ceiling tiles and carpet, which are absorbent materials, may need to be replaced.

E. <u>PESTS</u> :			
Are there pests?	□ yes	□ no	
If yes, what kind?	□ cockroaches	□ mice/rats	□ other
Do you wash your dishe	es soon after using ther	m?	□ yes □ no
Do you wipe food prepa	aration areas soon after	using them?	□ yes □ no
Do you store your food	s in? □ tightly sealed	container   p	plastic bags with twist ties
How often do you mop  ☐ other		every day	□ several times per week
Comments:			
Goals:			
eliminate unwanted per Try to use poison baits	sts, don't leave food or or traps before you us w the instructions on t eep the person who ha	garbage out an e pesticide spray he label. Also n s asthma out of	rodents are common asthma triggers. To d always store food in airtight containers. vs. If you use sprays, limit spraying to the nake sure that there is plenty of fresh air the room.
